

TRIMVENTURES *Media*

We are a husband and wife tag-team designing company that has a passion for creating fresh new ideas for websites, logos, book covers, brochures, newsletters, and more.

Located in beautiful Southeast Georgia, we have been designing websites and other media since 2001 for friends, family, businesses, and ministries.

Take a walk through our online portfolio and you will get a taste of our unique designs. Because it is important that each design is an original, we never use templates. We stake our reputation on our creativity and ultimately our originality.

WEB DESIGN

With an understanding of how daunting it is to get a website up and running properly, we are available to create a website reflecting you.

We enjoy getting to know you to understand your vision and taking the time to create a full website that represents you. The best designs are a result of good communication.

LOGO DESIGN

Most businesses and ministries thrive on name and logo recognition. If you need a logo that represents you, we can design anything from simple to intricate, black & white to full color.

just some of the many different types of media we can provide. When designing in collaboration with a website, logo, or others we can make all of your media match seamlessly.
